

MaxEnterprise Financial Management Applications

Making your Life Even Easier with These Add-on Applications!

General Ledger Exporting

Our General Ledger exporting application combines ease of use and flexibility to give you the ability to export your financial information out of MaxEnterprise to your existing financial software. With just a few clicks all your financial information gathered by MaxEnterprise can be transferred to your existing financial software without the old headaches of having to do this.

Besides saving you hours of time each month, the single entry also means less chances for user entry error from one system to another.

Credit Card Processing

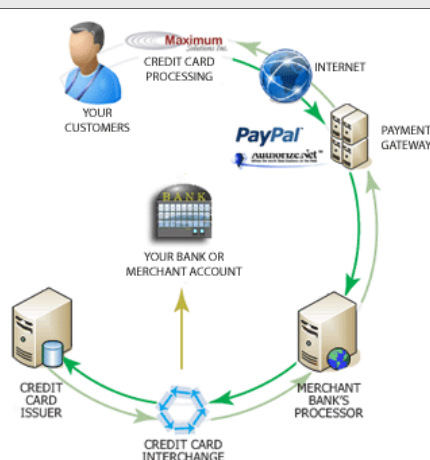

Are you looking for a scalable, fully integrated payment processing solution?

Our unique approach on MaxEnterprise Credit Card processing puts the revenues you make back into your pocket. Because we consult you on integrating to a processing agent, you don't have to dedicate a percentage of your revenues to us.

Maximum Solutions has teamed up with the industry leaders to give you the ability to take credit cards. Our Credit Card Processing application works across all Maximum Solutions applications: facility bookings, program and league registrations, memberships purchases, point of sale, and even recurring invoice or ACH payments. One very low monthly fee covers payments by credit card no matter what application you are using.

Call today and see why Maximum Solution's integrated credit card processing is the preferred approach for MaxEnterprise users.

Credit Card Processing Benefits

- Guarantee payment from your customers by taking credit cards.
- Money is deposited into your account
