

MaxEnterprise Membership Management Software

Track your customer like never before while providing additional security!

Membership Management

Want to track customers while providing additional security?

The MaxSolutions Online Membership Management application enables your organization to sell and track a wide variety of memberships. Memberships can be setup and customized as you see fit (i.e. Member/Non-Member, Resident/Non-Resident, Youth/Adult/Senior). Easily assign and un-assign individuals from membership packages (i.e. foster children, nannies, exchange students, etc.).

Whether you need to take one-time or recurring payments this software will streamline your billing process to provide a more efficient and profitable way for tracking your members. At the same time you get all the administrative power to run a wide variety of reports dealing with check-in history to billing and financial reporting. Our Membership Management software helps you acquire, manage, and

retain customers while greatly reducing your staff's time in tracking this information.

Membership Management Benefits and Features

- Manage one-time and recurring membership plans
- Create an unlimited amount of membership types, rates, and fees
- Incorporate automated credit cards or bank debit billing
- Share memberships amongst family or corporate entities
- Incorporate a quick zip-code list for automatic assignment of fees
- Display member photo and tracking history on membership check-in screen
- Handles ACH processing for recurring memberships
- Supports the ability to freeze, suspend, or cancel any memberships
- Detailed membership, financial analysis and receivables reporting
- Members can have multiple memberships assigned to one member card

Membership Check-in Screen

Enhancement Application Add-ons

Gate Access Control

Our Membership Management software has the ability to integrate into your turnstile gates. A member simply scans their membership card and the gate release is activated.

Locker Rental and Tracking

Assign lockers to your members and manage due dates, combos, etc.

Credit Card Processing

For recurring membership fees.

- Money is deposited into your account
- We don't take convenience fees
- We don't store the card numbers
- 128-bit secure processing

Membership Hardware

Add a webcam for capturing customers photos or utilize a barcode scanner for quicker check-in of members.

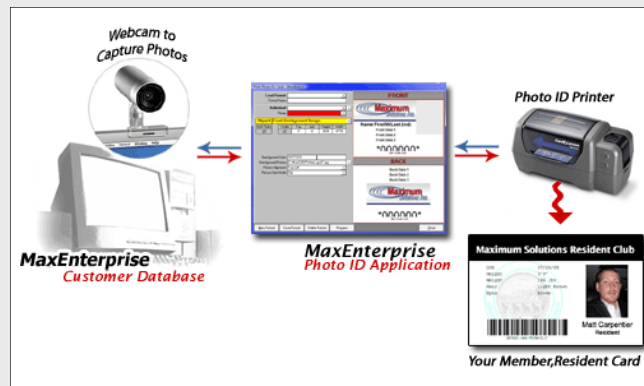

Membership Card Options

1. Print Your Cards On-site:

Photo-ID Printing Application

Want the ability to print your membership cards on-site? Our Photo-ID application for our Membership software is exactly what you are looking for.

Provide the maximum security in your complex by issuing your members cards that include their visual identification on them. With a couple simple hardware additions we can have you printing your own customized cards in no time!

2. Preprinted ID Cards (w/barcode):

Purchase preprinted cards directly from Maximum Solutions. There is a one-time \$50.00 card setup fee, then you choose the size of card you need:

Credit card sized: \$925.00 for 2500 cards
Key Tag sized: \$625.00 for 2500 cards

Credit Card Size

Key Tag Size
