MaxEnterprise Registration Software

Easy to Manage Desktop plus Web-enabled Registration Solutions!

Activity Registration

Looking for a better way to manage your program and activities you offer your clients?

The MaxEnterprise Activity Registration application allows you to setup programs and leagues, set class requirements, register participants, assign players to teams or wait lists, take payments, print rosters, receipt confirmations and more. This product is also fully integrated with our Facility and League Scheduling applications, eliminating the duplication of data entry.

The activity registration software centralizes all information into a single database which contains program and customer management, billing, receivables, financials, and email/mail communication. Maximize your incoming program revenue stream while providing your customers with more information to keep them informed and satisfied patrons.

Activity Registration Benefits and Features

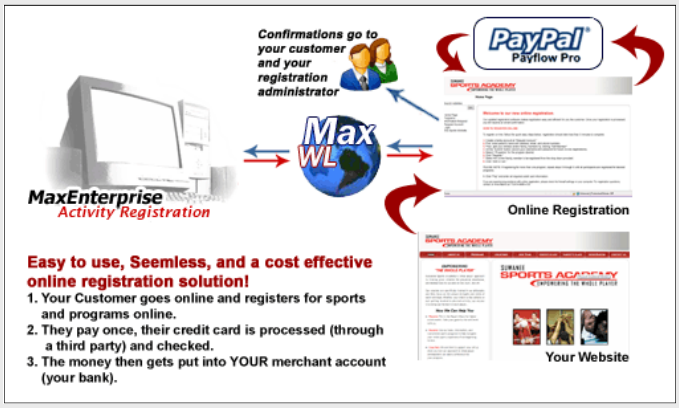
- Save time by creating activity templates
- Extremely flexible fee structure (i.e. resident/non-Resident, member/non-member, other charges, time and date discounts, percentage and fixed rate discounts)
- Create restrictions on age or grade requirements
- Multiple payment options (cash, check, credit card, etc.)
- Full integration. Facilities are booked out when setting up activity times
- Link fees to GL account codes and track revenue by accounts
- Create customized waivers
- Easily track and display program availability
- Generate waitlists
- Easy refunds, cancellations, credits, etc.
- Register for multiple programs while only taking a single payment
- Track profit/loss on each program and class offered
- Generate custom questions to gather specific registration data
- Create registration alerts
- Swipe drivers license to gain accurate data entry of customer information
- Generate mail/email based marketing lists by past program attendance, interest, demographics and more
- Supports child care and day camp activities

Online Registration

Greatly boost attendance by accepting registrations from the internet!

Our Online Registration application is an extension of our Desktop Registration software that allows your customers to register for classes, events, and leagues 24 hours a day, 7 days a week. Your staff will spend no more weekends working through endless sign-up lines, no more unpleasant days' spent on data entry and processing of payments! Not to mention, greatly reduced time spent copying and mailing out information, and tending to phone calls.

We do not charge convenience (per registration) fees! Unlike other vendors who offer this type of solution, Maximum Solutions has taken the sole stance in offering this product without per registration fees. We set you up directly to the processing company who then connects to your EXISTING or preferred Merchant Account (YOUR BANK).



Online Registration Features

- Provides your customers a 24/7 way of registering for programs and activities.
- 100% Secure Hosted Interface
- Fully customizable look and feel to site
- Customers can register for multiple programs and family members while only making one payment
- Online customer account maintenance
- Gather program specific information
- Handles multiple fees per program
- **No convenience fees from us!**
