

MaxSolutions Online Web Hosted Software

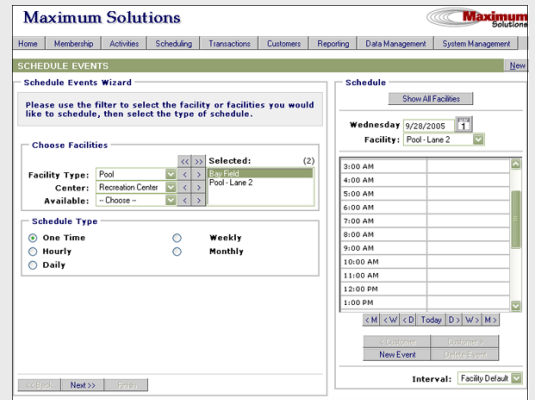

Facility Scheduling

The MaxSolutions Online Facility Scheduling application enables users to manage their facilities from any internet accessible location. This is also an excellent solution for our users who have the problem of scheduling their facilities that are located at various locations where a local LAN set-up isn't feasible. Keep all your staff and customers aware of what's going on through a streamline facility management software. No more running around looking for your scheduling book, locating information on who is paid up, and best of all, **NO DOUBLE BOOKINGS!**

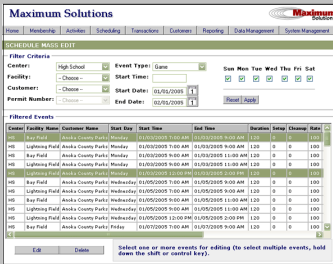

Imagine a facility scheduling software that does everything you need it to do — a system that's fast, easy, and secure. Whether you're booking a one-time or a recurring event schedule our software will allow you to accomplish this in seconds. At the same time the software then provides instant output in terms of creating a customer schedule, internal schedules, as well as tracking all the billing aspects of the event(s). Match this ease of use with the benefits of a single fully integrated financial and customers database and you have the best rated facility scheduling software on the market today.

Membership Management

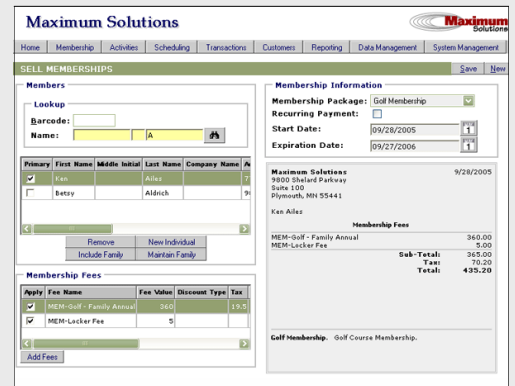

The MaxSolutions Online Membership Management application enables your organization to sell and track a wide variety of memberships. Memberships can be setup and customized as you see fit (i.e. Member/Non-Member, Resident/Non-Resident, Youth/Adult/Senior). Easily assign and un-assign individuals from membership packages (i.e. foster children, nannies, exchange students, etc.).

Whether you need to take one-time or recurring payments this software will streamline your billing process to provide a more efficient and profitable way for tracking your members. This powerful application is perfect for organizations who need to track membership data but may have facilities located Remotely (i.e. non-networked).

Membership Management Benefits and Features

- Manage one-time and recurring membership plans
- Create an unlimited amount of membership types, rates, and fees
- Incorporate automated credit cards or bank debit billing
- Share memberships amongst family or corporate entities
- Incorporate a quick zip-code list for automatic assignment of fees
- Display member photo and tracking history on membership check-in screen
- Handles ACH processing for recurring memberships
- Members can have multiple memberships assigned to one member card
- Over 20 Management based reports
